IV How many "true cases" in I.
Form C remain undetected

Submitted.

The case which was detected in the Bangalore District is one among the number of cases which were struck off on C forms and not among those which were ordered by Magistrates to be kept on file and detected. Similarly in the Shimoga District, the Police have detected 9 cases out of the 10 struck off on file. These have been omitted in the Draft order as they did not fall under the no. of cases ordered by Magistrates to be detected. There has not been a single case of detection in the latter case. The word "almost" will be omitted, if permitted.

The statements have been ~~checked~~ compared.

OFFICE OF THE

INSPECTOR GENERAL OF POLICE IN MYSORE.

No. 407-3 / 465 Dated Bangalore, 5th June 1897

Enc. Two

FROM

THE INSPECTOR GENERAL OF POLICE IN MYSORE.

To

THE SECRETARY TO THE GOVT. OF MYSORE,
GENERAL AND REVENUE DEPARTMENTS.

SIR,

With reference to your letter No. 12692 / J.1435 dated 26th May 1897 ~ enquiring whether there are any standing orders besides Rules 57 and 61 of the Police Rules on the subject of the further steps to be taken for the detection of undetected cases, I have the honor to state that, in the year 1888 the Inspector General of Police in his letter No. 1410-305 dated 15th September brought to the notice of Government the desirability of prescribing a form

in which the Police could bring before magistrates for orders, cases in which there were no chances of a clue being found and get such cases removed from the file.

2. The Government in their order No. 4443-51-cir 130 dated 15th Sep-tember 1888 sanctioned the intro-duction of the form recommended and at the same time requested the magistrates to scrutinize the pro-ceedings of the Police enquiry and satisfy themselves that the investi-gation was complete.

In the same Proc.

3. On 30th June 1891, the Inspector General of Police issued a circular to the Districts (copy of which is herewith forwarded) pointing out to the Police the object and scope of the C form and impressed upon them the fact that the responsibilities

of the Police do not cease with sub-
-mitting a 6 form, that all cases
reported in 6 form are true ones
and as such must be kept in
view and detected when proper
clues are forthcoming.

How many such cases have been detected since 1888 it will be extremely difficult to know CH

4. In the Government of India Provincial Return recently intro-
-duced into the Province, there is no
-column to show 6 form cases and
Police pending cases, but these cases
are shown in the District Returns
as will be seen from columns
16a and 16b in the form prescribed
for District Returns herewith sub-
-mitted.

The form A referred to in para 4 of Mr Shadi's letter 15 Lett 488 seems to be pursued for all the reasons being recorded. I presume form A does not now exist CH

5. The number of cases in
which 6 form was submitted to
the magistrates and the number
pending with the Police at the close

of the Officials years 1895-96 is given in para 14 of the report.

6. The practice observed at present is to submit B sheet where a case is found to be undetectable and if the magistrate concurs with the Police he strikes it off on B form and the case is shown in the ledger as struck off on B form. If in any subsequent year, a clue is found and the case is detected the case is brought into the annual Returns as pending from the previous years and its disposal is shown.

7. Where the Police submit B sheet and the magistrate differs from the Police and returns it, every endeavour is made to

detect

detect it, and if no clue is obtained, the Police submit C sheet to the magistrate.

8. It is not customary either in Mysore or with other administrations to refer to or comment on cases struck off on what are known as C forms in Mysore and in which further action may have been taken during the year under review. This information will have to be obtained from the Districts who will have to obtain it from the ledger of crime for the past years As there will be delay and as we are already at the close of the year following that to

Form C was introduced following the Madras practice presented in GO first Dr No 26 dt 9 January 88 Madras Madras first approved by subsequent adoption Mysore as the Hand to serve as GO 9 Jan (if we only had returned in Ab that copies any subsequent ... after ...

which the Report refers, I have ventured to request Government to be informed if the inform-ation is indispensable, in which case a requisition will be sent immediately to the Districts.

I have the honor to be,

Sir,

Your most obedient Servant

V Madhava Rao

Inspector General

of Police

CIRCULAR.

OFFICE OF THE INSPECTOR GENERAL OF POLICE IN MYSORE.

No, 874/24 *Dated Bangalore 30 June* 1891.

From

The Inspector General of Police

To in Mysore

THE DEPUTY COMMISSIONER

The Inspector General of Police has noticed that the Police officers have misconceived the instructions issued in this office Circular No. 444/51/130 dated 15th September 1888 on the subject of the submission of C. forms to Magistrates under Section 173 Criminal Procedure Code.

2. The main object in prescribing Form C. is to disencumber the Police file of true cases in which the Police after their best efforts conclude that detection is impossible and to enable them to submit the above form to the Magistrate not for finally closing the case but for the purpose of obtaining his order to remove it from the Police file.

3. Police officers are apt to consider that the removal of a true case from the Police file under the orders of the Magistrate, brings it to a final close, that further efforts are unnecessary to detect it and that as in a case struck off on B. form, their responsibility has come to an end. This view of C. form is entirely erroneous and is opposed to the instructions contained in the aforesaid Circular.

4. So long as a case is a true one, the Police are bound to detect it. All the cases reported in C. form to Magistrates are true ones and as such they must be detected by the Police eventually.

5. Police officers should be strictly made to understand that their responsibility does not cease in a true case, directly it has been struck off the Police file by order of Magistrate and that the necessity for its subsequent detection always exists.

6. District officers are requested to see that these instructions are fully understood and acted up to by their subordinate Police officers.

/Signed/ L. Ricketts

Inspector General of Police

Exd. S. S.

V.B. Soobbiah & Sons Printers, Bangalore,—1891.

Draft as per Mr. Cr's remarks

10

Read.

No. 25-6 / 29 7-7-97.

Letter No. 4073/465 of 5 June 1897 from the Insp. Genl. of Police in response submitting the information called for in this Office No. 12692/1435 of 26-5-97 regarding the further steps to be taken for the detection of cases kept either by the Police or by order of the Magistrate, on the file of "undetected" cases.

Order thereon -

Information regarding the further action taken in respect of the class of cases referred to above should be given in future administration reports; as also with respect to the number of cases of previous years which remained undetected up to the year immediately preceding but were detected during the year under report.

2. Meanwhile, the Insp.

General is requested to submit as soon as, - be a special report on the following points:-

i) Since 1888, how many cases reported as true but not detected forthwith have subsequently been detected and with what result.

ii) What steps, if any, were taken by the Police, subsequent to the submission of C. form, for detecting such cases, when the Magistrate found that the Police had not done their best!

The above information should be given districtwise with the names of officers who specially detected cases referred to under (i).

iii) How many "true cases" in Form C have remained undetected since 1888 up to date?

It is presumed that Return of cases on the undetected

undetected file is being submitted periodically to the Insp: Genl from each district. If so, he is requested to forward those for the year 1895-96 for the information of Govt.

4. Whenever an old case is detected and brought on the Annual return, as stated in para 6 of the Dy's letter, the No and other particulars should also be briefly noted in the column of remarks.

5. With respect to the remark of the Inspector Genl in para 8 of his letter, it is observed that Form C. was introduced into Mysore in accordance with the Madras practice as laid down in Order No 26 Judicial of 9: June 1888 of the Madras Govt. He is requested to state if, so far as he is aware, the Madras Govt has issued any

any other order subsequently, and in that case to forward copies of these together with a copy of the G.O. of 9 June 1888. if ~~the same are available in box office.~~

Forms which were detected subsequent to the date of their having been struck off with results &c.			Of the cases reported on C. Forms since the year 1888 in how many cases did the Surgeon state his opinion to be that the patient ordered them to be struck off sick and detected that fact thereafter adopts such a course towards them as to defeat him.	All persons of the Police Officers who detected the Case referred to under column 2 of this Statement.
	Convicted	Acquitted	Discharged	No. of cases still remaining undetected	

e District

Forms since 1888 to the end of the financial year 1895-96.

Remarks

V

An average of 29 undetected cases per year. The major of these cases were attempts to commit House Break and cases in which no property was stolen. In a number of the cases in which property was stolen detection was almost impossible as the property could not be identified.

C Hamilton

No. 7

33

Letter No. 3719/425 dated the 18th April 1898 from the Inspector General of Police in Mysore submitting as called for in Govt Proceedings No. 11934/1281 dated 22nd March 1898, the statements received from Districts showing the number of cases reported on "C" form and further steps taken by the Police towards the detection of such cases since 1888 up to the end of the official year 1895-96

Order thereon

The subjoined statement shows the number of cases reported on "C" forms in which the Magistrates ordered, or which the Magistrates ordered, to be detected, the number of cases in which the Police were successful in making the detection

o finding that the Police had not done their best to detect them, ordered that they should be returned to the Police file with a view to further steps being taken for their detection.

3

detection and further steps taken by the Police in the various Cases. —

	No of cases ordered to be detected.	No detected by Police.	Further steps, if any, taken by Police in remaining cases.

2. The final report shows, in a few cases, that in spite of the utmost efforts of the Police that was ~~It is observed that in about~~ all the cases ordered ~~by Magistrates to be detected~~ the further steps taken by the Police officers concerned were nil. This is not satisfactory. The first Court must be prod to enquire and to enquire on all points as appears the grant on postponement of ~~detection~~ detection case which are reported in time. The Govt will take occasion in reviewing the despatch of Police Matters, to satisfy himself that these cases have not been kept up and when necessary instructions thereon further enquiries on the part of the Police to detect them.

Are these correct? If so why were the "Nil" cases not sent in before the Magistrate's Court was closed?

The Government regret to observe, on a perusal of the district returns by the Inspector General of Police, that in all the cases referred to above, the further steps taken by the police officers concerned were *nil*. The Inspector General will be good enough to direct his attention to this matter and to impress on all police officers the great importance of doing all in their power to detect the true cases which are reported in Form "C." The Inspector General will take occasion, on visiting the different police stations, to satisfy himself that these cases have not been lost sight of and to give needful instructions to ensure further exertion on the part of the police to detect them.
